

ultimate anti-aging and targeted slimming

4D RF and MP face and body therapy is highly effective in collagen remodeling for skin tightening/lifting and targeted cellulite reduction. these treatments use highly advanced non-invasive medical device with FDA and CE approval, powered by four cutting-edge technologies:

- Pulsed Electro Magnetic Fields (PEMF) technology to induce fibroblast proliferation through release of the growth factor FGF-2
- Multi-Polar Radio Frequency (RF) technology to directly stimulate fibroblasts to produce new collagen and accelerate lipolysis
- VariPulse™ technology to enhance the lipolysis effects of RF energy by facilitating deep energy penetration (up to 4.5cm) and reaching therapeutically effective temperature faster, allowing the increase of blood circulation and stimulation of lymphatic drainage
- Real-Time Thermal Feedback technology to enhance treatment safety/comfort and consistently maintain therapeutically effective temperature
